# Logan Baugh

**Frontend Developer | UI/UX Designer**

318-914-2514 • loganbaugh0423@gmail.com

github.com/latechlogan • LinkedIn

## Professional Summary

Frontend Developer with 7+ years of experience building responsive, accessible web applications. Strong foundation in HTML5 and CSS3 with experience in JavaScript, jQuery, and modern frontend workflows. Proven track record implementing WCAG compliance standards and leading stakeholder-driven development projects using Git, Azure DevOps, and CI/CD pipelines. Combines technical skills with graphic design background to deliver polished, stakeholder-driven interfaces.

## Technical Skills

**Core Technologies**

HTML5 • CSS3 • JavaScript (ES6+) • jQuery • Git/GitHub • Azure DevOps • npm • Webpack

**Frameworks & Libraries**

React (Familiar) • Angular (Familiar) • Bootstrap

**Design & Prototyping**

Adobe Creative Suite (Illustrator, InDesign, Photoshop, XD, Lightroom) • Figma

**Development Practices**

Responsive Web Design • Mobile-First Design • CSS Grid • Flexbox

Web Accessibility (WCAG Level A/AA/AAA) • Version Control • CI/CD Pipelines

Agile Workflows • Cross-Browser Compatibility

**Additional Tools & Experience**

RESTful APIs • CMS (WordPress, Mura) • SiteImprove • Jest (Unit Testing) • Browser DevTools

# Professional Experience

**Blue Cross Blue Shield Louisiana**

**Frontend Developer** | 2020–Present

- Lead frontend developer for stakeholder-driven web applications including myaffinityhealth.com and monroesurgical.com, implementing responsive design and modern web standards
- Key contributor to blueadvantage.lablue.com with additional development work on bcbsla.com and primewellhealth.com
- Implement and maintain WCAG Level A/AA compliance across web properties using SiteImprove accessibility auditing tools
- Collaborate with cross-functional teams using Azure DevOps for version control, code review, and deployment pipelines (dev → UAT → production)
- Build mobile-first, responsive layouts using CSS Grid, Flexbox, and modern CSS techniques
- Bridge communication between design and development teams to ensure pixel-perfect implementation and optimal user experience

**Century Marketing Solutions**

**Sr. Graphic Designer** | 2018–2019

- Developed responsive websites for local businesses and supported internal projects for major clients including CenturyLink and Unilever
- Collaborated with development team to design and implement custom web solutions for client-specific requirements
- Applied corporate brand guidelines across print and digital campaigns for various clients
- Created comprehensive branding solutions (logos, advertisements, marketing materials) for diverse client portfolio

**Vantage Health Plan**

**Web & Graphic Design Coordinator** | 2016–2018

**Graphic Designer** | 2013–2016

- Led frontend development for major website redesign, implementing mobile responsiveness and improved user experience

- Maintained and enhanced existing web properties using HTML, CSS, and JavaScript/jQuery
- Developed and applied corporate branding standards across print and digital materials
- Collaborated with stakeholders to translate business requirements into technical solutions

**Alliance One Advertising**
**Graphic Designer** | 2012–2013

# Education

**Louisiana Tech University**
Bachelor of Fine Arts, Communication Design | 2008–2012

# Certifications

**freeCodeCamp.org**
Front End Development Libraries | 2022
Legacy JavaScript Algorithms and Data Structures | 2021

# Projects & Continuous Learning

Currently completing The Odin Project (Full Stack JavaScript Path), building modern web applications with emphasis on:

- Advanced JavaScript concepts and ES6+ features
- Git workflow and version control best practices
- Module bundlers (Webpack) and package management (npm)
- Testing methodologies and frameworks (Jest)
- Modern frontend architecture and component-based design
